

ESAT Past Paper Guidance

This document has been designed to enable students to complete all relevant practice questions for the ESAT, avoiding repetition of questions that appear identically in both the NSAA and ENGAA. The light colour indicates questions of a different style (i.e., not multiple choice).

1. Working year by year, all students should first complete the relevant sections of NSAA past papers:			2. Students completing ESAT Mathematics 2 AND Physics, should complete the maths and/or physics questions from the ENGAA as appropriate:
